MultiSit in detail
MultiSit is a very simple, durable & efficient public seat that makes money on advertising. Its 3 basic functions are - sitting, fencing, advertising. SittingElegant, maintenance free and effective sitting arrangements for public and business areas. Made for a short time seating and safe use. Emphasis is put especially on keeping the streets and surrounded areas clean and elegant, also creating an additional, long lasting infrastructure.

Rotary Joint
The materials used for the maintenance-free MultiSit proved to be unbeatable in any weather and resistant to natural damage. They offer corrosion protection and durability. Strong rotary joints are made of die-cast aluminum AlSiMg7.

Pipe and Profile
FrameBlack steel galvanized with textured powdercoat proved to be the MultiSit

material of choice and efficient durability. RAL color selection transforms the MultiSit surface according to your specifications.
(*high quality stainless steel, can be used as a more expensive alternative to black steel)

- The seat can be folded down to both sides, with a possibility to lock up just to one side according to space and advertising requirements.
- 150kg / 330.69lbs load-bearing capacity
- Tested for child safety, TÃ V certified.
